

## GOLF WA PENNANTS

### - INCLEMENT WEATHER -

It is GolfWA's recommendation that, where possible, play resumes and matches be played to their conclusion. Failing an improvement in weather conditions the following procedures will apply;

If poor weather occurs on the day of a pennant fixture it is the responsibility of the host club committee and/or official to determine whether or not conditions are fit to continue play.

Incomplete contests and matches will not reconvene at a later date, and as such a result must be determined on the day of the fixture.

Unless a definitive result has occurred (e.g. in a seven man team four or more matches have been completed, and at least four have been won by one team), the contest will be deemed a half.

Should a club be hosting two fixtures in a day (both AM and PM), and the AM match is affected or delayed by weather, players must discontinue play in time to allow afternoon rounds to commence as per their scheduled fixtures.

#### **Examples:**

##### *Scenario One*

Five matches have been completed prior to suspension of play and the committee determines that play will not resume.

Team 'A' has won two matches, team 'B' has won three, two matches are yet to be completed.

As neither team has won four or more matches, the contest will be deemed a half and the teams will receive equal points.

##### *Scenario Two*

Five matches have been completed prior to suspension of play and the committee determines that play will not resume.

Team 'A' has won four matches, team 'B' has won one match, two matches are yet to be completed.

As team 'A' has won more than half of the matches in the contest (four from seven), they will be deemed the winners of the contest. Completed match results will stand, unfinished matches will be deemed halves.

##### *Scenario Three*

No matches have been completed prior to suspension of play and the committee determines that play will not continue.

The contest will be deemed a half and the teams will receive equal points.

*Note:* GolfWA reserves the right to alter any of these conditions as they see fit.
