

WA Male Ranking Calculations 2023- 2024

The WA Male Ranking System, now combining both Boys and Open Age Men’s events, is designed to help with the selection of teams and representative squads. This a rolling system over a 12- month period, and as a result the points average does not reset.

Junior Eligibility

Players are eligible to be count as a junior if they are 17 years & under. Therefore, the day a player turns 18 he is no longer counted as a junior. Points gained from Tier 3, 5 and 6 events, for players that are no longer counted as a junior, will still count to a players’ ranking until the 12-month period after the counted event passes.

Points Average Calculation

The points average is calculated by dividing the total number of points accrued by the number of events played.

Therefore, a golfer who has a total of 60 points and played in 10 events would have a points average of: $60/12= 5$ pts

Divisor Calculation

The minimum divisor is 12 events for ALL included competitors.

The maximum divisor is 30 events for JUNIOR competitors. If a player participates in more than 30 events, the counting events will in effect be “bonus points”.

The maximum divisor is 24 events for OPEN AGE competitors. If a player participates in more than 24 events, the counting events will in effect be “bonus points”.

For example, if a junior player plays 34 events, his divisor remains at 30.

A player who is over 17 years of age, but still has points counting from Tier 3, 5 & 6 events, will have the same divisor as a JUNIOR competitor and therefore will have a maximum divisor of 30.

Weighting and Distribution of Points

Points are allocated as a result of the position a player finishes in a particular event. A player finishing 1st receives the maximum number of points, counting down in numerical order until all points have been allocated.

For example, in a Tier 2 event (see below) a player who finishes 1st receives 30 pts and a player who finishes 30th receives 1 pt.

In the event of a tie for a position in any of the below events, the player will receive an average of the combination of points for all involved positions.

E.g., 2 players tie for 3rd in a Tier 6 event: 8 (3rd) + 7 (4th) = 15 divided by $2= 7.5$ pts awarded

Events are weighted due to the type of event. Below is a description of each level of event, the number of points distributed and therefore it’s weighting.

<u>Tier</u>	<u>Level of Event</u>	<u># pts awarded</u>	<u>M/play weighting</u>
Tier 1	Men's Nat Ranking	Top 40	x4
Tier 2	Men's Nat State Ranking	Top 30	x3
Tier 3	Boys’ Nat Ranking	Top 20	x2
Tier 4	Paxton Average Events	Top 15	x1.5
Tier 5	Boys’ Nat State Ranking	Top 15	x1.5
Tier 6	Boys’ C&S Average Events	Top 10	x1

Professional Events

For professional events, on the PGA of Australasia Tour that have a prize purse between \$100,000 and \$500,000, players will receive 5 pts for participating in the event, and 5 pts for those players who make the 36-hole cut. Points will also be allocated to those players finishing inside the top 40 (as per the above points allocation).

For professional events that have a prize purse of over \$500,000, players will receive 10 pts for participating in the event, and 10 pts for those players who make the 36-hole cut. Points will also be allocated to those players finishing inside the top 50 (as per the above points allocation).

Distribution of Points for Match Play Tournaments

Points are allocated as below:

<u>Position</u>	<u>Points allocated</u>
Champion	10
Runner- up	8
Semi- Finalist	6
Quarter- Finalist	4
Round of 16	2
Round of 32	1

The above allocation of points is then multiplied by the match play weighting as per the type of event.

For example, in a Tier 3 event a Semi- Finalist receives 6 pts * 3 (match play weighting) = 18 pts.

If a match play tournament follows a stroke play qualifying component (e.g., WA State Amateur), the match play component does not count towards a player's divisor and is therefore counted as a "bonus points". These points will count in the same tier of event that the stroke play qualifying component is counted as.

NOTE: GolfWA reserves the right to alter the points allocation/category based upon size and strength of field.

Current level of Interstate events

(GolfWA reserves the right to change the tier that an event is listed as and add or remove events as deemed necessary).
